SUMMARY

Motivated individual with experience in front-end and back-end development. Passionate about creating seamless user experiences. Seeking an opportunity to further enhance technical skills and contribute to the development of innovative web applications.

EXPERIENCE

Revature Software Engineering Program

Revature

- Built applications using Java, Spring framework, RESTful API, and SQL.
 - Used Test-driven development methodology.
 - Promoted best practices in OOP.
-

PROJECTS

Weather App

<https://ducksunlimited12.github.io/Weather-App/>

- Uses data from the OpenWeather API to display weather information. Users can enter a new location, or delete an existing location.

Meme Generator

<https://ducksunlimited12.github.io/meme-generator/>

- A React-based web application that allows users to create custom memes using images from the Imgflip API.

Event Planner

<https://ducksunlimited12.github.io/Calendar-Event-Planner/>

- A calendar application that allows the user to add and delete events for specific dates. Uses local storage to save the events so that they persist even after the user closes the application.
-

EDUCATION

AS Natural Science and Mathematics

Napa Valley College • Napa, CA

SKILLS

Html, CSS, Bootstrap, Javascript, React, Java, JDBC, SpringBoot, SQL
